Aims and Scope: *Electromagnetics* publishes refereed papers of permanent archival value in the broad field of electromagnetics. Specific topics include: electromagnetic theory, high frequency techniques, extra low frequency and very low frequency, antennas and radomes, arrays, numerical techniques, scattering and diffractions, wave propagations, plasmas and ionosphere, inverse scattering and remote sensing, and geophysical applications. The journal welcomes deliberation concerning innovations in the field.

Electromagnetics (ISSN 0272-6343) is published quarterly by Taylor & Francis Ltd., 4 John Street, London WC1N 2ET UK, for Taylor & Francis. Annual 1995 institutional subscription £158, US $260. Personal subscription rate UK £68, US $99, available to home address only and must be paid for by personal check or credit card.

Second-class postage paid at Jamaica, NY 11431. U.S. Postmaster: Send address changes to Electromagnetics, Publications Expediting Inc., 200 Meacham Avenue, Elmont, NY 11003.

Dollar rates apply to subscribers in all countries except the UK and the Republic of Ireland, where the sterling price applies. All subscriptions are payable in advance and all rates include postage. Subscriptions are entered on an annual basis, i.e., January to December. Payment may be made by sterling check, dollar check, international money order, National Giro, or credit card (AMEX, VISA, Mastercard/Access).

Orders originating in the following territories should be sent directly to: **India**—Universal Subscription Agency Pvt.
